

Language studies at MIT

Looking for adult participants

Ages 18-60

Earn \$20-30/hr!

What is involved? You will listen to words and sentences while we record your brain activity with fMRI. fMRI is a "brain camera."

Looking for right-handed native speakers of English.

Why participate? You will receive \$20-30/hr and a picture of your brain!

Where? MIT campus in Cambridge (a short walk from Kendall/MIT red line T-stop). We provide free parking.

When? At your convenience, weekdays or weekends.

How to participate? Contact the Gabrieli lab at 617-324-3722, or gablabstudy@gmail.com

More Information: This investigation is conducted by the Gabrieli Lab at MIT. Visit our website! <http://web.mit.edu/gabrieli-lab>
